HENRY A. MACOMB, Architect.

Aug. 31st, 1887.

~~CHICAGO OFFICE, 243 STATE ST.~~

Hon. Daniel M. Fox,

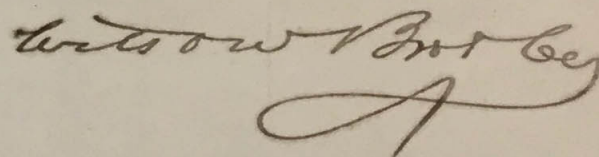

Supt., U. S. Mint.

Dear Sir:

It is our desire to test the engines at the United States Mint on next Friday, if we can arrange with the parties in interest. It is our desire at that time to have the Mint run to its full capacity, both in the coining room, rolling room and other parts of the building. If you can arrange matters so that this can be done, the test will be more satisfactory both to us and to all parties concerned.

Immediately after the test we will send you an estimate for this work, which will amount to \$8,880.86. Please make such arrangements as may be necessary in order that the estimate can be paid.

Very respectfully,

NARA RG104, Entry 1, Box 147
